Introduction

All beneficiaries of the Nordplus Junior programme must submit a final report to the programme administration one month after the end of the project period, as indicated in the contract. Projects with a duration of more than 18 months must additionally submit an interim report. The deadline for the interim report is fixed to June every year.

The final report must present an account of the activities carried out and the results achieved. The final report has a narrative part, with a description of the activities carried out and the results achieved, and a financial part accounting for the use of the Nordplus Junior grant.

The following document presents the guidelines and requirements for the final report and the documentation of activities, and contains a step by step guide for the reporting process. Some parts of the reporting differ between mobility projects and project/networks.

Mobility projects are projects that consists of one, or more, of the following mobility activities: class exchange, teacher exchange and pupil exchange.

Project/Networks are strategic partnerships between school groups, organisations or institutions, working together on a specific theme or issue within education or lifelong learning.

The project type you have been granted is stated in your contract and in the report form.

1. General information

Language

The summary in the section "For publication" must be written in English. The rest of the report can be written in English or in a Scandinavian language, provided that all partners in the project are able to understand.

Grants

Grants for mobility projects in Nordplus Junior are based on *unit costs*, and the financial reporting is linked to the realisation of the activities in the project. For project/networks, grants are based on *actual costs*, and a separate file with a detailed presentation of the expenditures must be attached to the final report. Please note the following:

• grants can never be increased or raised from the amount indicated in the contract.

- only activities within the contract period can be included in the final report and financial account.
- only costs directly related to the project and its activities are eligible.

Documentation

Please note that financial documentation, such as receipts and transportation confirmations, is not to be submitted with the final report but must be kept by the coordinating organisation for at least five years after assessment and approval of the final report. No personal information about the participants in the project is to be submitted with the final report.

2. Access to the final report

The report is available in the Nordplus application and reporting system Espresso, which is accessible from www.nordplusonline.org.

The coordinating institution is responsible for accomplishing the report.

The report is connected to the contact person's e-mail address of the coordinating institution; the same address as stated in the application. Therefore, the coordinator needs to log in using this e-mail address in order to get access to the report. If another person than the contact person has submitted the application, this person will not have access to the report form. In order to get access to the form, the contact person must create a login using his/her name and the e-mail stated in the application.

When you have logged into Espresso, you can access the report form under "My tasks".

If you have submitted several applications, make sure to report on the correct project by checking the project reference number with the number stated in the contract.

3. The reporting process step-by-step

The system is built up using tags for the different parts of the application.

Once you have begun a report, it is possible to save it and then return to it later in order to finish and submit it. It is possible to do this under every tag in the reporting process. If you have forgotten to fill in a mandatory field, the system will

signal this, so there is a chance to go back and complete your application before you submit it.

Tag 1: Start

The first section of the report consists of general project information and access information.

Project information

After logging in to Espresso and choosing the project you wish to report for, the project title and project number will be filled in automatically.

Project access

In this section you can add or remove users having access to edit the report and add or remove users with reading access.

Tag 3: For publication

Under this section, you are asked to provide a short description of the main outcomes and results of your Nordplus Junior project (maximum 350 words), in English. This will be published in Nordplus' project database.

Project information

The information regarding project type and period is autogenerated and cannot be changed.

Outcomes and results

The summary should cover:

- results, conclusions and impact of the project.
- the number of students and teachers involved in the project.
- the acquired knowledge, experiences, competences and skills of the students/pupils/ teachers/staff involved.
- the impact of the project on the participating institutions.
- if relevant, the description may also include information on developed products/materials.

Tag 4: Reporting

This section is the main narrative section of the report. Detailed descriptions and concrete examples are encouraged. Well-structured texts are very much appreciated as it eases the evaluation of your report.

General information

The first part is a summary of how you reached the overall objectives for your project. Again, give detailed examples.

Organisation

In this part you describe how the activities were carried out and how the project partners shared the responsibilities and workload during the project. Was it carried out as planned in the application stage or did you deviate from the plan? If so, explain the deviation and its cause.

Also, you are asked to describe how the project was evaluated both during and in the end of the project. What did you evaluate, and which were the results?

O Worse than planned
O Not at all

Results/outcome

This section concerns the project's impact on pupils, teachers, other staff and the involved institutions. Describe both expected and unexpected outcomes, both positive and less positive. If any of the expected outcomes you stated in your application was not achieved, please describe this and, if possible, explain this as well.

Concerning teachers and other staff, describe impact and changes in pedagogics, didactics and methodology with concrete examples.

Dissemination

In this section, you describe how you have informed about and spread the project in all the participating institutions, and how the outcomes are expected to be used by the participating institutions in the future. You should also describe how your outcome could be beneficial for others outside of the participating institutions.

In this section you are also asked to describe any problems or obstacles you encountered during the project, and how these were solved.

1.Start	2.Institutions	3.For publication	4.Reporting	5.Mobility	6.Expenditure	7.Submitt

Please make sure that both the number of mobilities per return trip and the total number of mobilities for the whole project are correct before submitting the report. If you are granted domestic travels, you need to state the same to and from country, and the number for duration weeks should be "0".

Tag 6: Expenditure

Granted support This table is autogenerated and shows the support you were granted

Expenditure

Please type how much of the grant you have spent on each activity. For mobility projects the *own contribution* should be "0". Support for mobility is based on lump sums, and the expenditure should therefore be reported as lump sums (and not as actual costs).

Project/networks report on actual costs, and the own contribution must be at least 25% of the total project expenditure.

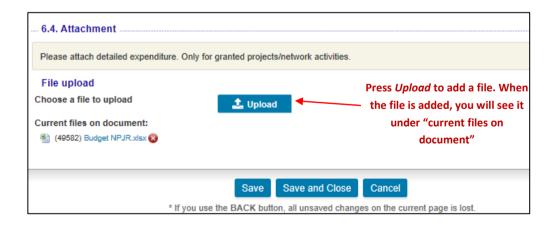

Note: If all mobilities are fulfilled and carried out as indicated in the grant decision, the surplus money can be used to cover other cost relevant to the project. If you have questions, or are unsure, please contact the Junior administration.

4. Assessment of final report

The final report, results and outcomes will be assessed by the programme administration based on the following criteria:

- the extent to which the project was implemented in line with the approved project application,
- the quality of activities undertaken and consistency with project objectives,
- the quality of the results, products and outputs produced.

For mobility projects, the calculation and execution of the final payment depends on the realisation of the activities and number of finalized mobilities.

For project/networks the calculation and execution of the final payment depends on actual costs and detailed expenditure.

5. Final comments

For further information or questions, please contact the Junior administration at <u>nordplus@uhr.se</u>

You can also contact the program office in your own country, please see <u>www.nordplusonline.org</u>

Best regards,

Nordplus Junior administration
