About the qualification comparison

UHR's assessment reflects the number of years to which the foreign qualification is comparable at a particular level of higher education in Sweden, since the foreign qualification has no direct comparison among Swedish degrees.

The second cycle represents the second level in a three-part European structure for higher education (Bologna level 2). The figure below shows qualifications at this level.

This assessment is provided as guidance by UHR. It is based on our knowledge of the country's education system and not on the individual's education documents. UHR applies the principles of the international recognition convention Lisbon Recognition Convention and assumes the foreign qualification is recognised in the country of study.

Country information

There are three different education systems in Belgium: the Flemish Community (Dutch language), the French Community (Wallonia, French language) and the German speaking Community in the east. Each region has its own qualifications framework.

The level of Swedish qualifications and degrees

Swedish degrees and final grades are placed within reference frameworks that show different levels of learning outcomes. In the figure, the Swedish reference framework SeQF is shown as well as the European reference frameworks that facilitate comparison to other countries. Please note the figure does not contain all Swedish qualifications.

Not all qualifications are included in the figure.

*Please note that the Advanced Higher Vocational Education Diploma is included in EQF och SeQF level 6, but not in Bologna level 1.
