Two years of study, first cycle

About the qualification comparison

UHR's assessment reflects the number of years to which the foreign qualification is comparable at a particular level of higher education in Sweden, since the foreign qualification has no direct comparison among Swedish degrees.

The foreign qualification is in a profession that is regulated (requires authorisation) in Sweden. The Swedish National Agency for Education is the competent authority that decides on certification for teachers and preschool teachers. Please visit skolverket.se

The first cycle represents the first level in a three-part European structure for higher education (Bologna level 1). The figure below shows qualifications at this level.

This assessment is provided as guidance by UHR. It is based on our knowledge of the country's education system and not on the individual's education documents. UHR applies the principles of the international recognition convention Lisbon Recognition Convention and assumes the foreign qualification is recognised in the country of study.
